Wisconsin Regional

FIRST Robotics Competition

March 13 and 14, Friday and Saturday

9:00 to 5:00

CHILDREN ARE WELCOME!!!

FREE ADMISSION

US Cellular Arena

400 West Kilbourn Avenue Downtown Milwaukee

Join the *Lunacy* as the teams compete in their new game which celebrates the 40th anniversary of man's landing on the moon.

During each 2 minute and 15 second match, student's robots collect and score "Orbit Balls" in trailers attached to the opposing team's robots. Human players are positioned around the perimeter of the field and score from their stations. The wild card -- the surface of the field is covered with slick plastic -- it makes maneuvering of the robots very challenging!

Free tours of the Pit Area. Meet the teams and see the robots.

Sponsored by: GE Volunteers, Rockwell Automation, George & Julie Mosher, Plexus Corp, P&H Mining Equipment, QuadTech, M&I Bank, Badger Meter, Brady Corp, Marquette University, Milwaukee Area Technical College, MSI General, Oshkosh Truck Foundation, Polymath Inc., and Thomas Products.
